7.th terro-vanadium quoted at 101 \$5.50 to \$7.00 per pound and sendum pentoxide at \$6.00 per and it is reasonable to expect that te ranadium ores of the Yellow The mining district, Clark county, wads, would receive some atten-Vanadinite, descloizite and syndescloizite, the principal vanadin ores of the camp have been recir several years. It being imposhie to market the ores, however, stil the last year, little or no attenhas been given to the known gosits. It is impossible at the ent stage o- development to prerate an opinion as to the future of he district as a vanadium producer. et the deposits so far developed are mall and occur in the limestone nd nearly always near a sandstone metact. The ore bodies are doubtsecondary and of the impregnaan type. The ores, I am told, are ot radio-active.

"The ore at the size, which has one of the best devines in the district, will probbly run i per cent V205 as mined. though some picked samples from set of Colorado ores and I am inwmed that recent experiments at entimetric concentration have been White ammongsful

werer, is not dependent upon vanlimm for its prosperity, but presee lead, zinc, silver, gold, platim palladium and copper as well. Boss mine, having just received starts upon a car of platfnum ore lat setted them \$9,000 after paying 140 freight rate. The Yellow Pine the the largest producer in the amp, has paid \$2,400,000 in diviand since 1912 and doubtless has le largest lead-zinc-silver high grade attonate orehody in the world. The me bodies of this property occur the limestone and on or near the luiset with a monzonite porphyry Erusion, and are of the replaceent type. The metal content of is ore will average 45 per cent mined The silver values are inmaking with depth and average waity-four ounces per ton on the wer levels. Until recently no de-sopment had been done below the foot level but under the able M progressive management of forms P. Kirk, who has remodeled mill, erected a calciner, and intalled a new holsting plant at the the a winze has been sunk from at 500 to the 1000 foot level which heen in ore all the way. No Mishides have been encountered in by part of the mine. Stock of Ms company is quoted at \$1.20."

ELECTED IN AUSTRALIA

PARIS, Dec. 31 -Although the supreme council today fixed January 6 as the date for signing the protocol MEXICAN ELECTION and exchange of ratifications of the are developing which it is thought by same persons in council circles, may again cause postponement of the ceremony of putting the treaty into effect.

It has developed that German techsical delegates who are here to arrange a multitude of details connected with plebiscites to be held in territories which must decide whether they desire to be detached from Germany do not appear to have full power to act on signing the protocol on January 6. Therefore it may depend upon whether Germans can cure these powers immediately.

The following telegram was re-masked robbers today entered the Farmers & Merchants National bank & Foster, who rank among the pio of Benson, an Omaha suburb, lined the employes and customers against the wail robbed the vault of \$115,000 then locked the employes and cus tomers in the vault, and escaped in an automobile.

> PROF. CARLL GIVES UP WALKING ON CRUTCHES

Prof A. Carll, the violin virtuoso, is out again walking with williars within a short depth. Do not erectness after crawling around for rowd stock sale now. Showing just several weeks on cratches, following a fall sustained in his studio by which he was thrown to the floor in such a manner that one ankle was twisted and put his motoring faculties out of business for the time being.
